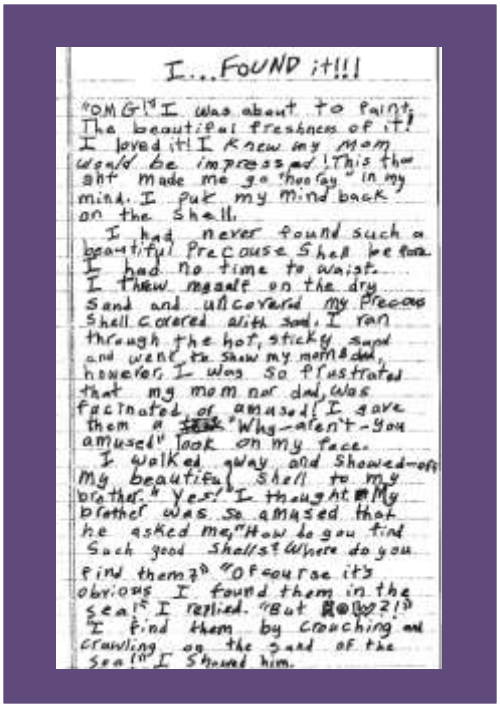
What Grade 4 Writing looks like

Start of the School Year



I...FOUND it!!!

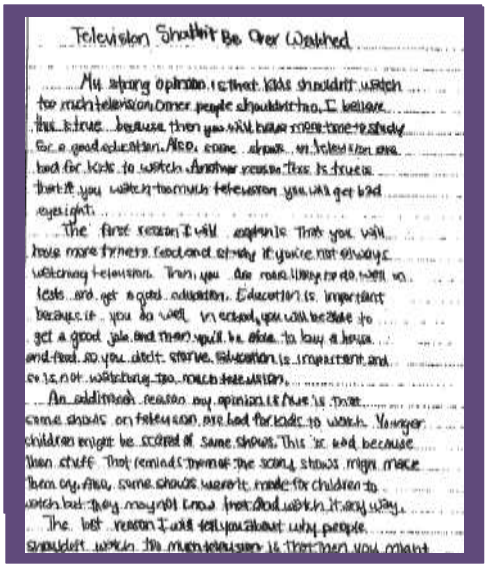
"OMG!" I was about to faint. The beautiful freshness of it! I loved it! I knew my mom would be impressed! This thought made me go "hooray" in my mind. I put my mind back on the shell.

I had never found such a beautiful Precouse Shell before. I had no time to waist. I threw myself on the dry sand and uncovered my Precous Shell covered with sand. I ran through the hot, sticky sand and went to show my mom&dad, however, I was so frustrated that my mom nor dad was fascinated of amazed! I gave them a ~~look~~ "Why-aren't-you amused" look on my face.

I walked away and showed-off my beautiful shell to my brother. "Yes!" I thought. My brother was so amazed that he asked me, "How do you find such good shells? Where do you find them?" "Of course it's obvious I found them in the sea!" I replied. "But how?!" "I find them by crouching and crawling on the sand of the sea!" I showed him.

Students write pieces that tell a story.
Their story has action, dialogue, and feelings.

Mid-School Year



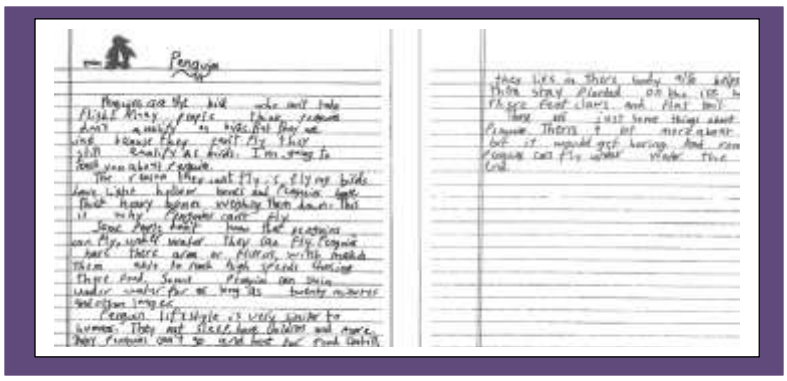
Television Shouldn't Be Over Washed

My strong opinion is that kids shouldn't watch too much television. Some people shouldn't, too, I believe. This is true because then you will have more time to study for a good education. Also, some shows on television are bad for kids to watch. Another reason is: It is true that if you watch too much television you will get bad eyesight.

The first reason I will explain is: That you will have more trimers (sections of time) if you're not always watching television. Then you are more likely to do well on tests and get a good education. Education is important because if you do well in school, you will be able to get a good job and then you'll be able to buy a house and food. So you don't starve. Education is important and so is not watching too much television.

An additional reason my opinion is true is: That some shows on television are bad for kids to watch. Younger children might be scared of some shows. This is sad because then stuff that reminds them of the scary shows might make them cry. Also, some shows weren't made for children to watch but they may not know that and watch it any way.

The last reason I will tell you about why people shouldn't watch too much television is that then you might



Penguins

Penguins are the kind who can't take flight. Many people these reasons don't realize that we and because they can't fly. That still. Really all birds. I'm going to tell you about Penguin.

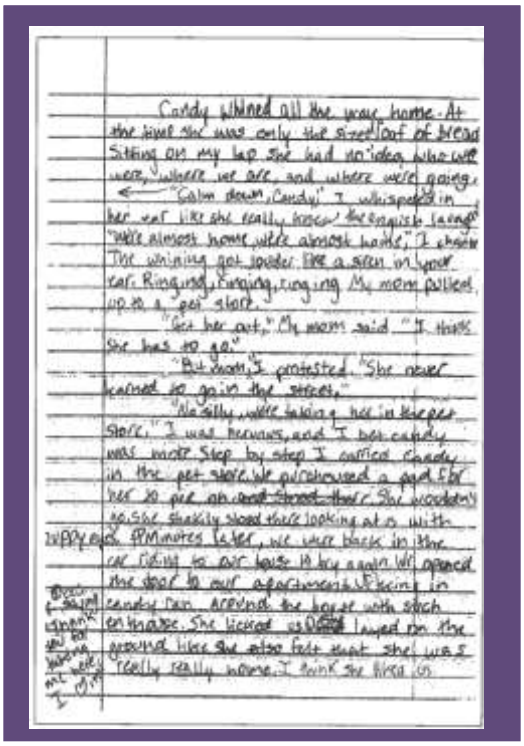
The reason they can't fly is, fly ing birds have light hollow bones and Penguin have that heavy bones. weighing them down. That is why Penguins can't fly.

Some People think that penguins are fly, water birds. They can fly Penguin part. There are Millions, on this Earth them. able to reach high speeds during their food. Some Penguin can swim under water for at long as twenty minutes and often longer.

Penguin lifestyle is very similar to humans. They eat sleep have children and more. Most Penguins don't go with out food for a long time.

Students write opinion pieces in quarter 2.
Informational pieces are writing in quarter 3.

End of the School Year



Candy Winked all the way home. At the time she was only the size of a loaf of bread. Sitting on my lap she had no idea who we were, where we are, and where we're going.

"Calm down, Candy," I whispered in her ear like she really knew. The engine's roaring "We're almost home, we're almost home," I chanted. The whining got louder like a siren in your ear. Ringing, ringing, ringing. My mom pulled up to a "pet store."

"Let her out," My mom said "I think she has to go."

"But mom," I protested. "She never learned to go in the street."

"Alright, we're taking her in the pet store," I was nervous, and I bet candy was more. Step by step I carried Candy in the pet store. We purchased a good for her to pee on and stood there. She wouldn't go. She shakily stood there looking at us with wide eyes. 15 minutes later, we were back in the car riding to our house to try again. We opened the door to our apartment & Rushing in Candy ran. Around the house with such energy. She licked us & I played on the ground like she also felt what she was really, really, really home. I think she liked us.

During the last quarter of school, students usually return to writing stories.
Their voice comes out in the piece and conveys emotion and tone.
Their stories have paragraphs.
