Vision and Hearing Screening - 2018

September 2018

Dear Parent/Guardian,

During the first quarter of this school year, we will be conducting our annual vision and hearing screening processes. All students in 4K and 5K will participate in vision screening. Hearing screening will involve all 4K, 5K, and 1st grade students. The primary purpose of this process is to identify students who may have vision and/or hearing issues which may be interfering with their learning. It is important to detect these issues early so it can be addressed appropriately.

If concerns arise during the screening process, you will receive a follow-up letter regarding the next steps. If there are no concerns, you will receive no further communication. If your child was previously screened in 4K and passed, he/she will NOT be rescreened. Again, if you do not receive a follow-up letter, please assume there are no concerns with your child's vision or hearing.

If your child has a history of chronic middle ear infections, hearing loss, or tympanostomy tubes, please notify your child's teacher or principal.

Please contact your child's teacher if you have any questions regarding the screening.

Mrs. Teresa Curley, Principal
