# KENOSHA UNIFIED SCHOOL DISTRICT 

## 2010-2011 Adopted Budget

## Introduction

It is the intent of the Kenosha Unified School District No. 1’s Board of Education and staff to provide the best possible educational system for the students of the district. The available resources will be directed toward the achievement of an identified mission, beliefs and objectives.

The Kenosha Unified School District has used the tool of planning to define a focus and to cause positive changes in the system throughout the years. These plans held titles such as Long Range Planning, District Goals, Effective Education, and Blue Ribbon Report.

In February 2005, a committee comprised of volunteers representing constituencies of the school district finalized a framework for a strategic plan to guide the District for the next five (5) years. The Planning Team finalized beliefs to guide the education process of the district. The team also developed a new District mission statement, parameters within which the district will accomplish its mission, objectives for student learning and strategies to achieve the mission and those objectives. The Board of Education unanimously approved the overall plan in April 2005.

In the spring of 2010, progress was noted and a new strategy that addressed the District’s finances was added. It was also recognized that many of the action steps were completed while others did not apply to current data and practices. It was determined that the five (5) year progress should be recognized and a new plan for the future should be developed. Following this recommendation, a new team was formed to begin developing a transformation plan for the future. To facilitate the new transformation process, staff members already trained in strategic planning were identified be used to facilitate and support District and school site planning.

On November 4, 2010, a team of 25 consisting of teachers, parents and administrators worked together for two (2) day to begin developing a new plan called a Transformation Design modeled after the District's original strategic planning process. A set of guiding principles were written, a new mission created, student results were defined and general goals were developed. This draft Transformation Design is scheduled to be presented to the Board of Education in December.

## Transformation Mission

The Kenosha Unified School District Mission is to assure every child experiences high quality, personalized learning success.

## Transformation Principles

Blended Personalized Learning...
adaptable to individual needs, flexible in access and delivery and interactive, engaging learning

Multi-Dimensional Life and Career Skills...
creativity and innovation, critical thinking and problem solving and communication and collaboration

Relevant Global Knowledge...
content/information/media literacy and social and cross-cultural competencies Transformation Student Results

## Transformation Goals

We will...

- improve student achievement.
- expand collaborative partnerships with families, community, and industry.
- secure resources to support learning.

## Transformation Student Results

Every student will...

- be engaged.
- demonstrate proficiency.
- show continuous growth.
- Graduate.

After the Transformation Design is approved by the Board it will be shared within the District and throughout the community. The goals are general and ideas are welcome for strategies to accomplish each goal. These ideas will be given to the Transformation Strategy Teams for consideration. All strategy suggestions are valued and anyone interested in serving on a task team will be considered.

Transformation Design Task Teams will write specific strategies for each goal followed by an action plan defining the specific steps and timeframes needed to reach the goal. The completed action plan will be presented to the District Transformation Design Team in April, 2011. Each action plan will be discussed to determine if completion of the steps will ensure accomplishing the Student Results and District Mission. Upon the Team's approval, implementation will begin immediately.

Schools are at various points with their current plans. As they move forward, the Transformation Principles, Mission and Student Results will be applied. Each school will re-establish a school mission and goals that are specific to their student data. Each goal will then have strategies and action plans to outline their work.

## Executive Summary

The Kenosha Unified School District’s 2010-2011 budget contains programs, staffing and services that will serve the 23,122 students that were in school this fall during the September pupil count (Third Friday Count). The next several sections serve as a summary of the key facts and assumptions used in the development of the budget and are intended to make the budget more understandable.

## Student Enrollment

The 2010-2011 budget has been prepared based on an increase of 97 in the District's official third Friday membership count (actual full time equivalents) over the 2009-2010 third Friday membership count of 22,426 . The membership plays a significant role in the development of the District budget. The District's revenue formula is based on a three (3) year average membership. If this average increases, the state revenue formula allows the budget to increase to accommodate those additional students. This year's three-year average membership increased by 150 students over last year's three-year average. Over the past ten (10) years, the District's enrollment has increased by an average of 296 students or $1.38 \%$ each year. A more comprehensive enrollment history is found on page 10.

## District Staffing

The school district is a very labor intensive organization with approximately $85 \%$ of the budget spent on wages and benefits for staff members. Staffing information, based on full time equivalency (FTE) for the 2010-2011 school year can be found on pages 11-13 for certified staff, support staff and administration.

## Budget Development Components

The 2010-2011 Revenue Limit formula provides for a revenue of $\$ 231,019,899$ for the general state aid and the local tax levy. This is an increase of $\$ 8,075,954$ or $3.62 \%$ over the 2009-2010 Revenue Limit. Included in this revenue limit increase are Revenue Limit Exemptions of \$1,569,657 for Transfer of Service, $\$ 3,950,588$ of unused prior year revenue limit authority and $\$ 701,648$ of the $\$ 2.47$ million operating revenue limit increase authority from the 2008 Indian Trail High School referendum. As explained on the next page, the District did not use all of the above revenue limit authority in building the 2010-2011 District budget. Local Revenues, Other Categorical Aids and Federal Aids make up the balance of the District’s 2010-2011 Fund 10 Revenue Budget.

The budgeted General Fund (Fund 10) revenues for 2010-2011 total \$252,975,959 and are delineated by source on page 38. The Fund 10 expenditures for 2010-2011 total $\$ 252,975,959$ and are delineated by object on pages 42-47. Any approved encumbrances and other amounts approved for carryover by the Board have been included in the expenditure budget and are delineated on page 31.

The District’s general state aid for 2010-2011 is $\$ 147,239,655$ based on the state formula (an increase of $2.67 \%$ over 2009-2010). Subtracting the general state aid from the Revenue Limit amount of $\$ 231,019,899$ allows for a tax levy of $\$ 83,780,244$ for Fund 10 operations and Fund 38 debt repayment. In 2002, the District refinanced the unfunded prior pension liability without a
referendum. In 2007, the District borrowed $\$ 8$ million to fund the new Brass Community School that replaced Durkee and Lincoln Elementary schools and is using the annual savings of consolidating the schools to repay the debt. In 2010, the District borrowed $\$ 8.3$ million for the Reuther Central High School façade restoration. The total amount of Fund 38 tax levy for the 20101-2011 budget is $\$ 2,348,922$. State law mandates that this non-referendum debt (Fund 38) be part of the overall Revenue Limit formula.

Throughout the 2009-2010 budget process, Administration indicated that if the General State Aid were reduced by the State, the Administrative recommendation would be to reduce the budget instead of increasing the tax burden of the community above what was initially projected to be the tax levy.

As a result of the larger than anticipated State budget shortfall, the General State Aid allocations throughout the State were reduced by $3.1 \%$ in the 2009-2011 State Budget. The actual impact for Kenosha Unified was a slight increase in the aid amount over the prior year ( $\$ 1,110,041$ ), but well short of the projected increase of $\$ 5,840,752$. Since Kenosha is below the state average for many of the components used in the Equalization Aid formula, the District benefited more favorably in the overall allocation of aid. This was still a $\$ 4,730,711$ reduction over what was initially estimated.

Understanding that the State School Funding formula allows school districts the ability to levy the difference between the Revenue Limit and the General State Aid received and concerned that would occur, the Legislature also reduced the revenue limit per pupil increase to $\$ 200$ for two (2) years (a $\$ 74$ per student decrease from 2008-2009). This lowered the District's Revenue Limit by $\$ 1,801,341$ and thus reduced some of the large difference between the revenues limit authority and the state aid. In presenting the 2009-2010 budget to the Board for adoption, Administration recommended that the budget be reduced by $\$ 3,950,588$ ( $\$ 3,921,000$ at the time the budget was adopted). By State Statute, this unused Revenue Limit authority must be levied the following year.

## Property Tax Impact

School district property taxes include levies for general operations, debt service, capital expansion, and community services. Property values are equalized to reflect market value rather than local assessed value. The equalized levy rate is the total property tax levy divided by the current year equalized property value with tax incremental financing (TIF) values excluded. Levy rates are shown in "mills" or property tax dollars levied per $\$ 1,000$ of equalized property value.

The 2010-2011 total property tax levy of \$94,664,486 consists of the following levies:

$$
\begin{array}{ll}
\text { General Fund } & \$ 79,162,892 \\
\text { Debt Service } & \$ 13,520,354 \\
\text { Community Service } & \$ 1,981,240
\end{array}
$$

The General Fund tax levy is comprised of $\$ 79,133,470$ in allowable operating Revenue Limit levy and $\$ 29,422$ in chargeback levy. State law allows a district to levy the following year any levy refunded back to a municipality based on the levy being uncollectible by the municipality. The Debt Service levy is comprised of $\$ 11,171,433$ of referendum debt and $\$ 2,348,922$ of non-referendum debt. The Community Service levy is comprised of $\$ 356,819$ to operate the Recreation Department and $\$ 1,624,421$ for the Community Service fund.

The 2010-2011 District equalized property value of $\$ 8,931,500,985$ represents a $6.09 \%$ decrease over the previous year and the total tax mil rate is $\$ 10.60$ and represents a $15.50 \%$ increase over the previous year. The tax on property valued at $\$ 100,000$ increased by $\$ 142.26$, from $\$ 917.64$ to $\$ 1,059.89$. A fifteen (15) year tax levy comparison that includes the mil rate breakdown by fund can be found on page 27.

The District's fund balance at the end of the 2009-2010 school year was $\$ 23,633,695$. The amount represents the difference between the General Fund's assets and liabilities. A "fund balance" is created or increased when fund revenues exceed fund expenditures for a fiscal period. A ten (10) year history of the District's fund balance is found on page 36. As of July 1, 2010, the fund balance equated to $9.94 \%$ of the ending 2009-2010 General Fund expenditures.

During the 2004-2005 school year, Administration recommended a Fund Balance Policy to the School Board that maintains a fund balance between 10\% and 15\%. The Board adopted this policy and added a stipulation that $\$ 1$ million a year will be set aside until the desired percentage is reached. This is the rationale for the $\$ 1$ million variance between the General Fund revenues and expenditures in prior years. For this budget, the $\$ 1$ million was not set aside and was used to balance the budget.

## General District Information

Kenosha Unified School District consists of the City of Kenosha, Village of Pleasant Prairie and the Town of Somers. For the 2010-2011 school year, the equalized property value and tax levy of the District was divided in the following manner:

|  | Equalized Value | Tax Levy | Percent |
| :---: | :---: | :---: | :---: |
| City of Kenosha | 5,773,067,908 | \$61,188,428 | 64.64\% |
| Village of Pleasant Prairie | 2,304,066,977 | \$24,420,679 | 25.80\% |
| Town of Somers | 854,366,100 | \$ 9,055,379 | 9.57\% |

An twelve (12) year history of the Equalized Value and Tax Levy breakdown between municipalities is found on page 16.

The legal name of the school district is "Kenosha School District No. 1", but is commonly referred to as "Kenosha Unified School District No. 1" or "Kenosha Unified School District". In 1994, the elector of the District supported a referendum to change from an unified district to common school district for Wisconsin State Statute interpretations. The policy making body for the District is the School Board which is comprised of seven (7) persons elected from anywhere in the district boundaries. Each member serves a three (3) year term with either two (2) or three (3) members up for election in any given spring.

The Board operates with various standing sub-committees. These consist of the Audit, Budget and Finance Committee, the Curriculum and Program Committee, the Personnel and Policy Committee, and the Planning, Facilities and Equipment Committee. Another committee, the Public Relations, Goals and Legislative Committee, does not meet on a regularly scheduled basis.

Names of the present members of the Board of Education and members of the District's administrative team are listed on page ii of this Budget Document. Additional information is available by contacting the Superintendent's Office at (262) 359-6320.

## 2010-2011 Budget Development Timeline

The 2010-2011 budget development process began with the presentation to the Preliminary Enrollment Projections to the Personnel and Policy Committee on November 10, 2009. After the projected enrollment was determined, the next step was to determine the preliminary staffing projections. If the necessary staffing is projected to change, an assumption is necessary to reflect the difference between the current staffing and the proposed staffing. In early March, the number of preschool students projected to be enrolled in 2010-2011 was increased by 240 students for a total of 340. This added an additional 144 students in membership for Revenue Limit funding purposes.

The Preliminary Staffing Projections were presented to the Personnel and Policy Committee on March 9, 2010 and the full Board of Education on March 23, 2010. The preliminary budget assumptions were presented to the Audit, Budget and Finance Committee on March 9, 2010.

Each year, Administration provides schools the opportunity to recommend additional budget assumptions during the budget development process. The request for new budget assumptions was distributed to schools and departments in mid January, with a deadline to submit new budget assumptions by January 29, 2010. Budget packets to assist schools and departments in developing their discretionary budgets were distributed to all schools and departments in mid February.

A special all-day Leadership Council Meeting to formalize budget assumption recommendations was held on March 29, 2010. An additional Leadership Council Meeting to complete the budget assumption review process was held on April 16, 2010. The Leadership Council also met on April 29, 2010 and again on June 15, 2010 to review additional information and feedback from the Board to be incorporated into the budget. The budget assumptions that form the basis of the 2010-2011 budget were presented to the Audit, Budget and Finance Committee on July 13, 2010 and then to the Board of Education on July 20, 2010.

While the Board adopted these budget assumptions and the preliminary budget, the budget still contained many projections that would not be known until September and October. The Public Hearing on the 2010-2011 Budget and District's Annual Meeting of the Electors was held on September 20, 2010 and was based on the preliminary budget and assumptions the Board approved in July.

The Third Friday student count that is a major component of the Revenue Limit calculation was held on September 17, 2010. The Tax Appointment Values (Equalized Property Value) from the Department of Revenue was received on October 1, 2010 along with the Certification of the 20102011 Aid Eligibility (amount of state aid) from the Department of Public Instruction on October 15, 2010. The formal adoption of the 2010-2011 Budget occurred on November 1, 2010 and the Tax Levy Certification was provided to the local taxing authorities on November 4, 2010.

## Proposed Budget Document Components

A separate section for each major fund category has been presented in this budget document. Audited balance sheets for all funds are provided for the past three (3) years. The audited revenues and expenditures for the past three (3) years are also presented, along with the adopted 2010-2011 budget. The General Fund (Fund 10) expenditure budget is presented in five (5) different ways.

The first presentation is summarized by major function or categorization of the educational purpose or program for which the expenditure occurs (e.g., instructional, administration, business, etc.). The second presentation is summarized by object or categorization of what was obtained from a specific expenditure (e.g., salary, benefits, purchased services, equipment etc.). The third presentation is summarized by where the dollars are spent (e.g., Teaching and Learning, Marinating Facilities, Central Services, etc). The fourth presentation is summarized by school or department location and includes all expenditure items that were charged to or budgeted for that school or department. The final presentation summarizes the General Fund expenditure budget by the major funding source, either local, state or federal funding and further delineates the funding by program or grant.

## Budget Adoption Format

The format for the budget adoption by the Board of Education, as recommended by the Department of Public Instruction, is presented on pages 24-26. It is the budget adoption format that is used by the Board of Education that ultimately determines the flexibility management has for administering the budget. By using the Department of Public Instruction recommended format, Board approval is only required when appropriations and/or purposes are changed between these major functional areas.

## General Fund 10

This fund is used for all financial activities relating to the current operations of the District. The budget reflects the assumptions described in the "Final Budget Assumptions" summary provided in this document. Another fund is used to record all special education revenues and expenditures (Fund 27). The net cost of special education is funded through a transfer from the General Fund (10) to the Special Education Fund (27). This expenditure is classified as a non-program transaction in the 400000 function series in the General Fund.

In 2005, the Board approved budgeting $\$ 1$ million a year to build the fund balance back to $15 \%$ as promulgated in the Strategic Plan and Board Policy. This has historically been reflected in the budget with the budgeted revenues being $\$ 1$ million greater than the budgeted expenditures. For this year, the $\$ 1$ million scheduled to add to fund balance has been used to balance the budget.

## Special Projects Fund 20

This fund is used to account for activities funded by specific federal and state grant programs. Only programs the DPI has identified as being accounted for in this Fund can be recorded here. Federal funding amounts for this year's Special Education and Head Start programs are reported here. The reimbursement for Fund 27's non-aided costs will be paid from Fund 10 and recorded as Fund 27 revenue as Operating Transfers In. Fund 27 has been structured in a way that the revenue and expenditure costs will be easily distinguished between federal, state and local funding.

In the 2008-2009 Budget, the District began using a new fund, Fund 21, to begin accounting for gifts and donations from private parties that can be used for district operations. This Fund can have a fund balance. There are no dollars budgeted in this fund in the 2010-2011 budget. In prior years, the donations in this fund have been from the Tremper Athletic Booster Club to assist with the Tremper trophy case project as part of the Tremper Cafeteria remodel.

## Debt Service Fund 30

The amounts presented here are based on the District's debt amortization schedule for this year. The debt service revenue is based on the 2010 tax levy collection for the calendar year payment of principal and interest, while the debt service expenditure is based on fiscal year principal and interest payments. The Debt Service Schedule, in both formats, is presented on pages 66 and 67.

Additionally, $\$ 1.6$ million of non-referendum debt to repay the financing for the District's unfunded pension liability, $\$ 0.6$ million for the construction of the Brass Community School that replaced Durkee and Lincoln Elementary schools and $\$ 0.8$ million for the Reuther restoration project is also included in this fund. This annual repayment amount of $\$ 2.3$ million is actually part of the General Fund Revenue Limits and Tax Levy.

## Capital Projects Fund 40

Expenditures presented here are based on designating the use of borrowed funds for capital improvement and major maintenance needs in the District. The renovation and expansion of Indian Trail Academy into a comprehensive high school and the Reuther façade renovation project are included in this fund. Construction on these projects began in the 2008-2009 school year. This year's portion of the project costs have been budgeted in this fund.

## Food Service Fund 50

The revenue budget presented includes a $\$ 0.10$ increase in school lunch prices for this year. The expenditure budget presented includes contractual salary and benefit increases along with inflationary increases for utilities. The increase in budgeted capital equipment expenditures includes plan to replace a Food Service truck, lunch tables and kitchen equipment in several schools.

## Pupil Activities Fund 60

A district is required to report only a balance sheet on its financial statements for this fund.

## Trust Fund 70

A district is required to report the assets held by the district in a trustee capacity for individuals, private organizations, other governments and/or other funds. In June 2005, the District established a trust fund for other post employee retirement benefits (OPEB) (e.g., retiree health benefits). The Trust was amended August 22, 2006 to allow for more investments options.

In the fall of 2006, the District initiated a segment of the overall funding plan. The approach recommended by the Audit, Budget and Finance Committee and approved by the Board involved the District contributing a small portion ( $6 \%-8 \%$ ) of the overall investment and the OPEB Trust borrowing the balance. The District borrowed $\$ 9.5$ million of taxable general obligation notes for five (5) years as the District's initial investment. The principal amount was to be repaid from the Trust at the end of the five (5) years while the annual interest payments will be made by the General Fund from funds designated for early retirement purposes. The OPEB Trust borrowed $\$ 28$ million dollars at the same time. The investment lost its value and this matter is currently being litigated.

## Community Services Fund 80

This fund operates the Senior Citizen Center, the Recreation Department, Athletic Venues and the District's Community Service Fund. Traditionally, the Board of Education approves a planned cost of service increase, based on the current consumer price index, in the scheduled recreation fees for the year. Due to the unprecedented economic conditions, Administration did not recommend any increase in fees for this year. In 2007, the Board approved funding a portion of the District's community cable access service and web site administration from this fund. The salary and benefit component of these costs will also increase based on contractual increases.

In 2006, a new community services fund, under the Recreation Department, was established for the operation of Ameche Field. In 2008, the operation of the newly refurbished Bradford Baseball Stadium was added to the fund and the fund name changed to Athletic Venues (previously named Ameche Field). No tax dollars are being budgeted to fund the operation of Ameche Field or the Bradford Baseball Stadium, only user fees, outside contributions and a contribution from the District's Athletic operating budget for the Unified teams that will utilize this field.

## Summary

The Kenosha Unified School District's budget for 2010-2011 has been prepared in accordance with the budgeting and financial operations policies for the District and conforms to existing State of Wisconsin requirements as set forth by the state constitution, state statutes, and the Department of Public Instruction. It is always the desire of Administration to present the Board of Education an appropriate balanced budget supporting all the current instructional programs of the District, taking into consideration the beliefs, parameters and objectives of the Strategic Plan and the ongoing instructional and fiscal responsibilities, with the ultimate goad of meeting the needs of all our students.

Dr. Michele Hancock
Superintendent of Schools

Chief Financial Officer

## Student Enrollment

- The total Third Friday enrollment for school year 2010-2011 is 23,122, an increase of 103 students from the 2009-2010 school year.
- The enrollment consists of 21,884 K-12 education students, 862 Early Childhood or PreKindergarten students and 376 Head Start students. In the 2010-2011 school year, the Four (4) Year Old Kindergarten program enrollment increased by 95 students.
- The Third Friday membership count for school year 2010-2011, as measured on September 17, 2010, was 22,523, an increase of 97 full time student equivalents from the final Third Friday count for school year 2009-2010.
- The Third Friday membership count converts actual students in the District to full time equivalents (FTE). If a student attends school all day, that student is considered one (1) FTE for the Third Friday count. If a student only attends school for one half ( $1 / 2$ ) day, that student is considered a one half ( $1 / 2$ ) FTE for the Third Friday count.

| School <br> Year | Early <br> Childhood | Kindergarten | Grades 1-5 | Grades 6-8 | Grades 9-12 | Total <br> Enrollment |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |

| $1995-1996$ | 680 | 1,492 | 7,310 | 4,073 | 5,147 | 18,702 |
| $1994-1995$ | 541 | 1,535 | 7,112 | 4,040 | 5,015 | 18,243 |
| $1993-1994$ | 660 | 1,308 | 6,881 | 3,935 | 4,894 | 17,678 |

## District Staffing

The budgeted staffing for the District is summarized in three (3) major categories (certified staff, support staff and administration) that include both district and grant funded positions listed by full time equivalencies (FTE) in Table 1. An FTE is the amount of an employee's time based on a full day. For example, a staff member scheduled to work full time is listed as a 1.00 FTE, while a staff member scheduled to work one-half of an instructional day is listed as a 0.50 FTE. The same full time equivalency methodology applies to all staffing categories.

The certified staff category and support staff category include those individuals who are classified within a collective bargaining unit. Further detail of those staff members is found in tables 2 and 3. The administrative staff that includes building principals, assistant principals, educational support, administrative staff, supervisory staff, and technical staff is delineated in Table 4.

Table 1
2010-2011 STAFFING SUMMARY

|  | 2009-2010 <br> FTE | 2010-2011 <br> FTE | FTE Increase / <br> (Decrease) |
| ---: | :---: | :---: | ---: |
| Certified Staff | $1,835.59$ | 1890.70 | 55.11 |
| Support Staff | 708.54 | 717.70 | 9.16 |
| Administration | 118.00 | 130.00 | 12.00 |
| Total | $2,662.13$ | $2,738.40$ | 76.27 |

Table 2
2010-2011 CERTIFIED STAFF DETAIL

|  | 2009-2010 <br> FTE | 2010-2011 <br> FTE | FTE Increase / <br> (Decrease) |
| ---: | :---: | ---: | ---: |
| Classroom Instruction | $1,092.58$ | $1,101.34$ | 8.76 |
| Art | 43.54 | 46.20 | 2.66 |
| Music | 60.87 | 60.98 | 0.11 |
| Guidance | 93.06 | 96.99 | 3.93 |
| Library | 35.49 | 32.00 | $(3.49)$ |
| Physical Education | 61.32 | 58.73 | $(2.59)$ |
| School Support | 34.16 | 37.86 | 3.70 |
| Charter Directors | 2.00 | 1.00 | $(1.00)$ |
| Special Education | 275.09 | 287.80 | 12.71 |
| Grant Funded | 137.48 | 167.81 | 30.33 |
| Total | $1,835.59$ | $1,890.71$ | 55.12 |

Table 3
2010-2011 SUPPORT STAFF DETAIL

|  | 2009-2010 <br> FTE | 2010-2011 <br> FTE | FTE Increase / <br> (Decrease) |
| ---: | :---: | ---: | ---: |
| Educational Assistants | 298.89 | 302.84 | 3.95 |
| Interpreters | 10.00 | 10.00 | 0.00 |
| Secretarial Staff | 141.25 | 142.25 | 1.00 |
| Service Staff | 205.00 | 204.00 | $(1.00)$ |
| Carpentry Staff | 9.00 | 8.00 | $(1.00)$ |
| Miscellaneous Staff | 44.40 | 50.08 | 5.68 |
| Total | 708.54 | 717.17 | 8.63 |

Table 4
2010-2011 ADMINISTRATIVE DETAIL

|  | 2009-2010 <br> FTE | 2010-2011 <br> FTE | FTE Increase / <br> (Decrease) |
| ---: | ---: | ---: | ---: |
| Technical Staff | 22.00 | 23.00 | 2.00 |
| Supervisory Staff | 21.00 | 28.00 | 5.00 |
| ESC Administrators | 17.00 | 18.00 | 1.00 |
| School Administrators | 58.00 | 61.00 | 4.00 |
| Total | 118.00 | 130.00 | 12.00 |

Based on the initial projected enrollment growth for 2010-2011, Administration recommended a net reduction of 29 FTE in teaching staff for the 2010-2011 budget. With the progression of students between the various grade levels, Administration was also able to reallocate a few classroom staff members to classroom support positions (Special Education, Psychologist, Social Worker and Language Acquisition Program staff), as needed.

With the continued expansion of the four year old (4K) Kindergarten program, 7 additional teaching staff ( 6.49 FTE ) and 3 support teaching positions were added to the Early Childhood program. The American Recovery and Reinvestment Act (ARRA) has given the District the opportunity to add several certified staff positions to support and mentor the existing classroom staff and to increase professional development. Additionally, the Education Jobs Fund has allowed the District to fund some positions that were previously eliminated or new positions (25.07 FTE) and also fund some District positions (16 FTE) for the 2010-2011 school year to assist in reducing the tax levy. All other additional classroom positions are funded through grant dollars and are only authorized for the duration of the grant funding.

Six (6) Teaching and Learning teacher consultant positions were reclassified as Curriculum Coordinator for this budget. Additionally, a Research Analyst, Chief Communications Officer and three (3) School Administrator positions were added.

## Instructional Staffing Projections

The information that follows provides a summary of the instructional staffing allocation formulas that were used for the staffing component of the budget development process for this school year. To assist in balancing the 2004-2005 budget, the Board approved, staffing ratios higher than the ratios contained in Board Policy 6151 for middle and high schools by 1 student per classroom. Please note that these staffing ratios are "district" allocations only and do not include Federal Class Size Reduction, SAGE or any state or federal grant funded positions.
2010-2011 INSTRUCTIONAL STAFFING ALLOCATIONS

| Level | Student/Staff <br> Ratio |
| :--- | ---: |
| Elementary K-3 | $21: 1$ |
| Elementary 4-5 | $24: 1$ |
| Middle School (6-8) | $19.10: 1$ |
| Senior High Schools (9-12, except Reuther) | $21.00: 1$ |
| Reuther High School | $17.25: 1$ |
| Special Education | $70: 1$ |
| Bilingual/ESL | $20: 1$ |

The above table excludes those students that do not count toward staffing ratios. These would include charter schools, Hillcrest and students of the Phoenix Project. Bi-lingual and English as a Second Language students are included in the elementary, middle and high school staffing ratios.

## Elementary Art, Music and Physical Education

Teaching FTE for elementary art, music and physical education are a function of the number of elementary teacher FTE. Elementary art, music and physical education are staffed based on the following formulas:

| Subject/Grade Level | Staffing Formula |
| :--- | :--- |
| Music Formula K-3 | $\mathrm{n} * 2 / 40$ |
| Art K-5 | $\mathrm{n} / 27$ |
| PE Formula K-3 | $\mathrm{n} / 35$ |
| Music Formula 4-5 | $\mathrm{n} / 40$ |
| PE Formula 4-5 | $\mathrm{n} * 2 / 35$ |

Where n = number of new teacher FTE's to be created or deauthorized

Kenosha Unified School District is an Equal Opportunity Educator/Employer with established policies prohibiting discrimination on the basis of age, race, creed, religion, color, sex, national origin, disability or handicap, sexual orientation, or political affiliation in any educational program, activity or employment in the District. The Superintendent of Schools/designee (359-6320) addresses questions regarding student discrimination, and the Director of Human Resources (262-359-6333) answers questions concerning staff discrimination.

## Financial Information

- Wisconsin Act 16 implemented Revenue Limits beginning with the 1993-1994 school year. A district's revenue limit is the maximum amount of revenue it may raise through state general aid and property tax for the General (Fund 10), Non-Referendum Debt (Fund 38) authorized after August 12, 1993, and Capital Expansion Funds (Fund 41). Prior to the 2001-2002 school year, the Community Service Fund levy was included in the revenue limit.
- The maximum revenue limit is based upon enrollment changes, the Consumer Price Index, and each district's prior year shared revenue. Upon application and approval by the Department of Public Instruction (DPI), a district may increase its maximum limit by the amount of specific exemptions (e.g., Transfer of Service). A district then determines the maximum allowable levy for Funds 10,38 , and 41 by subtracting the October $15^{\text {th }}$ general aid certification provided by the department from the revenue limit.
- In the Final 2005-2007 Budget Act, the State Legislature approved increasing the allowable percentage of unused revenue limit carryover for school districts from $75 \%$ to $100 \%$ beginning in the 2004-2005 fiscal year. This action provides school districts options in administering the revenue limit authority and tax levy in future years by eliminating the penalty for not taking full advantage of the revenue limit authority.
- The 2010-2011 District's total tax levy increased by \$7,389,313 over the 2009-2010 total tax levy for Kenosha Unified School District and includes \$3,950,588 of tax levy authority that was not levied last year. The mill rate per $\$ 1,000$ of equalized valuation is $\$ 10.60$, a $15.50 \%$ increase from the prior year. The last fifteen (15) years equalized values and tax levies is found on page 27.
- General Aid is state aid which is not limited to any specific program, purpose, or target population but which may be used in financing the general educational program as seen fit by the recipient district. General Aid can be contrasted with Categorical Aid in that districts are restricted in their use of Categorical Aid.
- The equalized valuation was provided by the Wisconsin Department of Revenue on October 1, 2010. The available state aid for 2010-2011 was provided on October 15, 2010 using the state mandated formulas. All public school districts must certify a property tax levy by November $1^{\text {st }}$ of each year.
- Over the last few years, a greater share of the District's property tax revenue is being borne by Pleasant Prairie and Somers due to the continued growth of residential and business property in those communities. This trend can be seen on page 16.

## Revenue Limit History

| School Year | Revenue <br> Limit | General State <br> Aid | Allowable <br> Tax Levy | Percentage <br> Growth | Percentage <br> State Aid |
| :--- | :---: | :---: | :---: | :---: | :---: |
| 2010-2011 | $231,019,899$ | $147,239,655$ | $83,780,244$ | $3.62 \%$ | $63.73 \%$ |
| $2009-2010$ | $222,924,220$ | $143,411,204$ | $79,513,016$ | $3.44 \%$ | $64.33 \%$ |
| $2008-2009$ | $215,500,596$ | $142,301,163$ | $73,199,433$ | $4.67 \%$ | $66.03 \%$ |

## Governmental Accounting

Financial administration requires that each transaction be identified for administrative and accounting purposes. The first identification is by "fund" which is an independent fiscal and accounting entity, requiring its own set of books, in accordance with special regulations, restrictions, and limitations that earmark each fund for a specific activity or for attaining certain objectives. Each fund must be so accounted for that the identity of its resources and obligations and its revenues and expenditures is continually maintained.

All funds used by Wisconsin school districts must be classified into one of nine "fund types". The major fund types are the General Fund, Special Projects Fund, Debt Service Fund, Capital Projects Fund, Food Service Fund, Agency (Pupil Activity) Fund, Fiduciary Fund, Community Service Fund, and Package and Cooperative Program Fund.

Wisconsin School Districts may not need to use all of these fund groups at any given time. The General, Debt Service, Food Service, Pupil Activity, and Special Projects Funds will undoubtedly encompass the majority of the transactional activity that will occur in the school district. The remaining fund groups, however, are still material to the overall presentation of the financial position of the school district and as such should be maintained and reported accordingly.

## GENERAL FUND (FUND 10)

The General Fund is used to account for all financial activities relating to the District's current operations, except those that are required to be accounted for in separate funds. There are no sub-funds in the General Fund.

## SPECIAL PROJECTS FUND (FUND 20)

These funds are used to account for activities funded by specific federal or state grant programs. Only programs the DPI has identified as being accounted for in this Fund can be recorded here.

## Fund 21 Special Revenue Trust Fund

This fund is used to account for trust funds that can be used for district operations. The source of such funds is gifts and donations from private parties. Cash and investment accounts in this fund are required as specified by donors. There may be a fund balance in this fund.

## Fund 25 Head Start Fund

This fund is used to account for the federal Head Start program. No fund balance or deficit should exist in this fund.

## Fund 27 Special Education Fund

This fund is used to account for special education and related services funded wholly or in part with state or federal special education aid or charges for services provided to other districts as a result of being a host district for a special education package or cooperative program. No fund balance or deficit can exist in this fund.

## DEBT SERVICE FUND (FUND 30)

This fund is used for recording transactions related to repayment of the following general obligation debt: promissory notes (issued per statute 67.12(12)), bonds, state trust fund loans and TEACH loans. Also included in this fund are transactions pertaining to land contract payments and refinancing of debt issues and other district obligations as specified by DPI. Debt tax levies must be recorded in this fund.

The resources in these funds may not be used for any other purpose as long as a related debt remains. Sub-funds may be established for various debt issues. If sub-funds are established, funds 31-37, and/or 39 may be used for debt approved by referendum. Fund 38 is required to be used to report transactions pertaining to non-referendum debt (i.e., State Trust Fund loans). A fund balance may exist in these funds.

## CAPITAL PROJECTS FUND (FUND 40)

These funds are used to account for expenditures financed through the use of bonds, promissory notes issued per statute 67.12(12), state trust fund loans, land contracts, an expansion fund tax levy established per statute $120.10(10 \mathrm{~m})$ or projects funded with a TIF capital improvement levy (Kenosha School District only). As permitted a capital project fund may also be used to record capital lease transactions involving a "letter of credit" or where use of the lease proceeds extends beyond the fiscal year end.

Capital projects funded through other sources of revenue such as gifts, grants, sale of capital objects, etc. may be accounted for in these funds depending on the circumstances. Proceeds from the sale of buildings, sites and equipment may be placed in this fund with annual meeting approval only. Expenditures financed through General Fund tax levy or balance is always recorded in the General Fund.

The use of sub-funds is required for audit reporting and legal compliance purposes. Subfunds 42-47 and/or 49 may be used as necessary to account for revenues other than an expansion fund tax levy authorized statute $120.10(10 \mathrm{~m})$ or a TIF capital improvement levy. Fund 41 is used for transactions financed with an expansion fund tax levy. Fund 48 is used for transactions financed with a TIF capital improvement tax levy.

Any balance remaining in a sub-fund established with borrowing proceeds must be transferred to the related debt service fund account upon project completion. The resources in capital projects funds may not be used for any purpose other than that for which the fund was established.

## FOOD SERVICE FUND (FUND 50)

Federal regulations require that the Food Service Fund be accounted for separately. All revenues and expenditures related to pupil and elderly food service activities are recorded in this fund. A fund balance in the Food Service Fund is permitted. There may be no deficit in the district's Food Service Fund. Any food service fund deficit, resulting from student food services, must be eliminated by an operating transfer from the General Fund. Any food service fund deficit, resulting from elderly food services, must be eliminated by a transfer from the district's Community Service Fund. The maximum that may be transferred if the district does not have a deficit in the Food Service Fund is limited to an amount necessary to cover a current year deficit in a particular food service program (National School Lunch, Breakfast, Ala Carte, etc.)

## PUPIL ACTIVITIES FUND (FUND 60)

This fund is used primarily to account for assets held by the district for pupil organizations. Funds held for parent organizations may be accounted for in this fund and are accounted for as a liability to the parent organization. Parent organization funds may be accounted for in Fund 60. The parent organization may not be a separate 501( c) (3) entity. Receipts such as pupil deposits for books, locks, etc; other receipts such as school lunch collections, athletic admissions and other fees may be temporarily deposited to agency fund checking accounts maintained at school locations until these items are remitted the district's business office for placement in required funds.

## TRUST FUNDS (FUND 70)

These funds are used to account for assets held by the district in a trustee capacity for individuals, private organizations, other governments and/or other funds.

## Fund 72 Private Purpose Trust Fund

This fund is used to account for gifts and donations specified for the benefit of private individuals and organizations not under the control of the school board. Scholarships are recorded in this fund. Cash and investment accounts in this fund are required as specified by donors. There may be a fund balance in this fund.

Gifts and donations for district operated instructional programs are recorded and accounted for in the Special Revenue Trust Fund (Fund 21).

## Fund 73 Employee Benefit Trust Fund

This fund is used to account for resources held in trust for formally established defined benefit pension plans, defined contribution plans, or employee benefit plans. Such plans must be legally established in accordance with state statutes, federal laws and Internal Revenue Service requirements. Specific requirements for use of this fund have been established by the Department of Public Instruction. This fund applies to all post-employment benefit plans where the district is providing such benefits by contribution to a legally established irrevocable trust.

Fund 76 Investment Trust Fund
This fund is used to account the external (non-district) portion of investment pools sponsored by the district.

## COMMUNITY SERVICES FUND (FUND 80)

This fund is used to account for activities such as adult education, community recreation programs such as evening swimming pool operation and softball leagues, elderly food service programs, non-special education preschool, day care services and other programs which are not elementary and secondary educational programs but have the primary function of serving the community. Expenditures for these activities, including cost allocations for salaries, benefits, travel, purchased services, etc. are to be included in this Fund to the extent feasible. The district may adopt a separate tax levy for this Fund. Building use fees charged for utilities and other operational costs must be recorded in the General Fund if no cost allocation was made for these to the Community Service Fund.

Statute 120.13(19) permits a school board to establish and maintain community education, training, recreational, cultural or athletic programs and services, outside regular curricular and extracurricular programs for pupils, under such terms and conditions as the school board prescribes. The school board may establish and collect fees to cover all or part of the costs of such programs and services.

Access to Community Service Fund activities cannot be limited to pupils enrolled in the district's K-12 educational programs. Other funds, such as the General Fund and the Special Projects Funds, carry out the day-to-day K-12 educational operations of the district. All activities associated with a well-rounded curriculum (curricular and extra-curricular activities) are to be accounted for in these funds and in pupil organization accounts contained in the Agency Fund (Fund 60).

Excluded from a Community Service Fund are any academic subjects and extra-curricular activities available only to pupils enrolled in the district. Student activities such as interscholastic athletics and other extra-curricular activities, pupil clubs, dances, field trips, student seminars and symposiums also may not be funded through Community Service.

A school board may, under s. 120.13(17), grant temporary use of school grounds, buildings, facilities or equipment, under conditions, including fees as determined by the school board.

A Community Service Fund should not be established for providing access to district property for organizations such as youth, theater, and other groups not under the control of the school board unless the district is incurring additional direct cost that will not be recovered through fees, therefore requiring a tax levy subsidy.

## PACKAGE AND COOPERATIVE PROGRAM FUND (FUND 90)

These funds are used to account for expenditures and revenues made by a host district related to a cooperative instructional activity involving several school districts.

## Fund 91 Packaged Services

This fund is used to account for expenditures made by a host district for programs made available to other districts through a CESA. The CESA makes the packaged service available to school districts. The participating districts, including the host district, will pay CESA for their share of the program. CESA payments to the host district are the only revenue recorded in this subfund and must equal expenditures. The CESA applies for any program related aid and handles any required aid distribution. No fund balance or deficit can exist in this fund.

## Fund 93 TEACH Program Consortium

This fund is used to account for consortia programs funded with grants and loans from the TEACH Wisconsin Board. There may be a fund balance or a deficit in this fund as permitted by the TEACH Board.

Fund 99 Other Package and Cooperative Program Funds
This fund is to be used for all other types of cooperative instructional funds. No fund balance or deficit can exist in this fund.

[^0]KENOSHA UNIFIED SCHOOL DISTRICT TAX LEVY COMPARISON

## KENOSHA UNIFIED SCHOOL DISTRICT

## BUDGET ASSUMPTIONS FOR 2010-2011 ADOPTED BUDGET

At the November 10, 2009, Personnel and Policy Committee meeting, the initial projected enrollment for 2010-2011 was presented. At the March 9, 2010, Personnel and Policy Committee meeting, the instructional staffing allocation plan for the 2010-2011 budget was reviewed. The actual staffing allocations were presented and preliminarily approved at the July 20, 2010 regular School Board meeting to discuss the budget. This budget not only maintains the district's current educational programs but also provides for continuous improvement and progress towards the district's goals and priorities as promulgated by the Strategic Plan.

The specific proposed objectives of the General Operating Fund Budget (Fund 10) are to:

1. Maintain a competitive compensation and benefit plan for the employees of the school district.
2. Continue to purchase services to adequately provide a safe and pleasant physical environment and supplement the educational opportunities available to the students and public.
3. Purchase an adequate inventory of supplies and materials to maintain the standards established by the Board of Education.
4. Purchase adequate equipment to maintain and operate a quality educational and supportive services program.
5. Purchase educational services through the payment of tuition to other agencies to meet the needs of students that the school district does not provide directly.

On the next two (2) pages are the changes to the revenue and the expenditures for this school year that have been approved by the Board of Education. The approved expenditure changes were reviewed and recommended by Administration. Included here are those items that can be funded through a combination of current funding projections and the recommended budget reductions. Additionally, those items approved for carryover by the Board are also delineated on the subsequent page.

Early in the 2005-2006 budget process, the Board of Education approved a policy allocating $\$ 1$ million of the General Fund budget to begin restoring the fund balance. To assist in maintaining the total tax levy that was presented and approved at the Annual Meeting of the Electors held on September 20, 2010, the $\$ 1$ million has been allocated in the 2010-2011 final budget to balance the budget.

## Kenosha Unified School District <br> 2010-2011 Budget Assumptions <br> As of November 1, 2010

2010-2011
Budget
Assumptions

## Required Budget Assumptions

| 1 | Projected Increase in Revenue Limit - Additional Students (3 Year Average) | $1,313,793$ |
| :--- | :--- | ---: |
| 2 | Projected Increase in Revenue Limit - Increase in Rate (\$200) | $4,117,476$ |
| 3 | Transfer of Service Revenue Limit Exemption (estimated at this time) | $1,569,657$ |
| 4 | Prior Year Carryover of Revenue Limit | $3,950,588$ |
| 5 | Recurring ITA Referendum for Operating Expenditures | 701,648 |
| 6 | Increase in Medicaid Reimbursement | $1,000,000$ |
| 7 | Reduction in the Revenue Limit Authority (reduces tax levy) | $\mathbf{1 , 8 6 0 , 1 0 2 )}$ |
|  | Proposed Revenue Change Total | $10,793,060$ |
|  |  |  |
| 10 | Increase in Salary and Benefits for current staff | $10,343,114$ |
| 11 | Reduction of Positions based on enrollment | $(2,544,672)$ |
| $11 a$ | Use Jobs Bill funding for additional Indian Trail High School positions | $(1,549,352)$ |
| 12 | Expansion of the Pre-School Program | 809,430 |
| 13 | Transportation - City Transit Increase | 31,430 |
| 14 | Transportation - First Student Contract Increase | 230,257 |
| 15 | Transportation - Route Increase | 70,621 |
| 16 | Property Insurance Increase | 14,777 |
| 17 | Liability Insurance Increase | 12,918 |
| 20 | Increase Utility Budgets due to ITA Expansion | 40,890 |
| 21 | Police Liaison Officers Contract Increase with the City | 9,699 |

## Kenosha Unified School District 2010-2011 Final Budget Carryover November 1, 2010

| Additions to the Expenditure Budget |  |
| :--- | ---: | ---: |
| Charter School Carryover | $\mathbf{7} 29,806$ |
| Donation and Unspent Grant Carryover | 47,026 |
| Energy Savings Carryover | 333,459 |
| Capital Bank Carryover | 15,212 |
| Carryover Requests | $\mathbf{2 4 0 , 9 7 7}$ |
|  | $\mathbf{1 , 3 6 6 , 4 8 0}$ |

The above are based on approved encumbrances and other amounts approved for carryover by the Board as delineated below.

## Charter School Carryover

The Charter Schools are allowed carryover of any unspent General Fund dollars, as stipulated in their individual contracts with the District. This is necessitated due to the unique funding of the school, the responsibility they have for the entire school budget, and their responsibility for future major maintenance issues or technology replacement not funded by the District.

## Donation and Unspent Grant Carryover

During the 2009-2010 school year, several schools received cash donations or mini-grants from outside organizations, most notably from the Education Foundation of Kenosha. Not all of the donated funds were completely expended by the end of the school year, therefore the schools have requested that these funds be carried over to the next school year.

## Energy Savings Carryover

During the 2005-2006 school year, Board action established a protocol where certain energy savings would be provided back to the schools as discretionary dollars for use in the next year's budget. The energy savings from the $2009-2010$ school year was $\$ 666,915$ with $50 \%$ of the savings $(\$ 333,459)$ being approved to be carried over. Of the $\$ 333,459,50 \%(\$ 166,730)$ will be provided back to the schools who met the energy savings criteria and the remaining $\$ 166,729$ will go back to the Facilities Department for additional energy conversation projects.

## Capital Bank Projects

In March 2005, the Board approved a modification to Policy and Rule 3112 that allows schools to "bank" budgeted dollars to build up a capital expenditure fund by allocating the same amount of dollars over a multi-year period. During the 2009-2010 school year, two schools took advantage of this option. The first school was Lance Middle School with a request to carryover unspent balances totaling \$10,212.27 to help fund the \$26,650 2010-2011 project of replacing the lockers in the Boy's Phy. Ed. locker room. The second request came from Lincoln Middle School for $\$ 5,000$ to be carried over from the 2009-2010 and 2010-2011 budget years in order to help fund the $\$ 15,000$ purchase of auditorium curtains in the year 2011-2012.

## Carryover Requests

During the 2005-2006 school year, Board action established a protocol where certain energy savings would be provided back to the schools as discretionary dollars for use in the next year's budget. The energy savings from the 2009-2010 school year was $\$ 666,915$ with $50 \%$ of the savings $(\$ 333,459)$ being approved to be carried over. Of the $\$ 333,459,50 \%(\$ 166,730)$ will be provided back to the schools who met the energy savings criteria and the remaining $\$ 166,729$ will go back to the Facilities Department for additional energy conversation projects.

## FUND 10

## GENERAL FUND

The General Fund is used to account
for all financial activities relating to
the District's current operations,
except those which are required to be
accounted for in separate funds.
There are no sub-funds in the General
Fund.

## Fund 10 Expenditure Budget by Funding

## FUND 20

## SPECIAL PROJECTS FUND

#### Abstract

These funds are used to account for activities funded by specific federal or state grant programs. Only programs the DPI has identified as being accounted for in this Fund can be recorded here. Sub-funds for Federal Handicapped Projects and Head Start are currently established.

## FUND 30

## DEBT SERVICE FUND

This fund is used for recording transactions related to repayment of promissory notes (issued per statute 67.12(12)), bonds, and state trust fund loans. Also included in this fund are transactions pertaining to land contract payments and refinancing of debt issues and other district obligations as specified by DPI. Debt tax levies must be recorded in this fund.

## FUND 40

## CAPITAL PROJECTS FUND

This fund is used to account for expenditures financed through the use of bonds, promissory notes issued per statute, State trust fund loans, or an expansion fund tax levy. Sub-funds are required for reporting specific bond and note issues' expenditures.

## FUND 60

## PUPIL ACTIVITIES FUND

This fund is used to account for assets held by the District for pupil organizations or to record returnable fees collected or temporarily record non-returnable fees until revenues are turned over to the District for placement in required funds. This fund is treated only as a balance sheet account on the District's financial statements.

## FUND 60 - PUPIL ACTIVITY <br> BALANCE SHEET

# KENOSHA UNIFIED SCHOOL DISTRICT 

## COMPARISON OF

## TEN LARGEST WISCONSIN DISTRICTS

## COMPARISION OF TEN LARGEST WISCONSIN DISTRICTS

In cooperation with the Wisconsin Association of School Business Officials Accounting Committee, the Department of Public Instruction (DPI) has developed several revenue and cost "benchmarks" that can be used for informational and general analysis purposes.

The Department of Public Instruction compiles this data after all of the audits and reviews of a completed school year. The must current school year that this data is published is for the 20082009 school year.

## Comparative Revenue per Member

The Comparative Revenue per Member is a calculation that compares revenues received by districts from four sources: federal, state, local property tax and local miscellaneous.

## Comparative Cost per Member

Costs can differ from one district to another or from one year to another. There may be several reasons for this variance - educational programming, pupil transportation requirements, increases or decreases in debt service expenditures or having food and community service operations. Reliance on a single cost determination, which may not be representative for all school districts, can lead to erroneous conclusions. The following "comparable" cost measures were developed to limit or identify the effects of various factors that contribute to cost variances:

## Total Current Educational Cost (TCEC)

This measure attempts to identify overall instructional and instructional support service costs attributable to district residents. It can generally be described as the cost of the district's General and Special Project funds, excluding transportation and facility acquisition expenditures, less inter-fund transfers and revenues for instructional services the district provides to non-resident pupils.

## Total Education Cost (TEC)

This is the TCEC plus transportation, expenditures for facility acquisitions charged to the General, Special Project, and Capital Expansion (Tax Levy Financed "Sinking") funds, and debt service principal and interest.

## Total District Cost (TDC)

This is TEC plus food and community service costs. It should be noted that food and community service activities are usually funded with fees and other program revenue, requiring little or no property tax subsidy.

The District has chosen to present the Total Education Cost (TEC) as it believes TEC to be the best comparison of data available. As indicated earlier, this benchmark data for the 2009-2010 school year just ended and the budgeted data for 2010-2011 school year are not available at the time of this publication.

Additionally, other comparative data for the 2010-2011 school year has been obtained from DPI and is presented.

[^0]:    The 2010-2011 Adopted Budget is presented in the Department of Public Instruction (DPI) Recommended Budget Adoption Format

[^1]:    Federal regulations require that the Food Service Fund be accounted for separately. All revenues and expenditures related to pupil food service activities are recorded in this fund. Any fund deficit at the end of the year must be eliminated through an operating transfer from the General Fund. Any fund balance must be retained for future use for Food Service.
