

ATTENTION KENOSHA COUNTY ATHLETES: SPORTS PHYSICALS NEAR YOU

WE WANT YOU ON THE TEAM!

\$35 STUDENT SPORTS PHYSICAL

Did you know you can't play sports without a physical in the state of Wisconsin? Kenosha Community Health Center offers sports physical appointments so you can get in the game.

- \$35 standard fee collected at the beginning of the visit covers exam and review of sports physical form. You may be eligible for a lower rate with our sliding fee scale based on household income.
- Parent and athlete are responsible for completing their portion of the form and bringing it to the visit.
- Does not include immunizations, prescription refills, or other medical care. If additional medical care is needed, parent will need to schedule a well child visit or a sick visit.
- Payment of fee does not guarantee clearance if medical clearance for athletic participation is not medically appropriate.
- The \$35 fee covers the cost of the sports physical and no charges will be submitted to the insurance company.

As mentioned above, the parent and athlete are responsible for providing the appropriate sports physical form as requested by the athlete's school or sports team.
