"At the July 28, 2015, regular school board meeting, the ALiCE response to violent intruder events was adopted along with six action steps. One action step was the creation of training materials and lesson plans to provide training to all district students in an age appropriate manner.

During the summer of 2016, school leadership and district staff drafted lesson plans for student training. The lesson plans focus on instructional and procedural aspects of ALiCE; there are no plans for physical role playing of students. These lesson plans are differentiated for each level and specific for elementary, middle and high school.

Feedback was gathered from principals and teaching and learning coordinators on August 10, 2016. Seven sessions for instructional and support staff were also scheduled. Staff signed up for feedback sessions and the sessions were led by school leadership staff.

The ALiCE lesson plans were presented to the Curriculum/Program Standing Committee on November 1, 2016. Committee members were given hard copies of all lesson plans at that meeting. The feedback from this session was broken down into three parts: Student Training Timeline, Parent Information Timeline and Student Lessons Plans. The feedback from the standing committee was processed and adjustments were made to both the student training and parent information timelines. Much of the feedback was in question form.

All lesson plans were mailed to the Board of Education in hard copy format on November 4, 2016, and sent electronically on November 7, 2016. The plans were presented to the school board for discussion on November 15, 2016. Feedback from

the school board was positive and no concerns, suggestions or questions were raised by board members.

The student lesson plan feedback was extended to the November 29, 2016, at the Curriculum/Program Standing Committee meeting to ensure committee members had enough time to process the lesson plan content.

Administration recommends that the School Board approve the ALiCE curriculum as presented."

There were no questions from Board members.

Mr. Wade moved to approve ALiCE curriculum as presented. Mr. Garcia seconded the motion. Unanimously approved.

Dr. Savaglio-Jarvis introduced the Summer School 2016 Update and Summer School 2017 Program Recommendations submitted by Mrs. Patricia Clements, Coordinator of Talent Development; Mrs. Julie Housaman, Chief Academic Officer; and Dr. Savaglio-Jarvis, excerpts follow:

"The goal of the Summer School program was to provide interventions and enrichment consistent with the approved curriculum of the Kenosha Unified School District. In the programs at the elementary and middle school levels, the objective was to provide opportunities for personalized learning in reading and math that encompassed collaboration, creativity, critical thinking, and communication around meaningful learning targets. At the high school level, the objective was to provide high school students with advanced credit in physical education and health, credit recovery opportunities, and to improve the graduation rate. In addition, Summer School provided learning opportunities in the areas of music; science, technology, engineering, and math (STEM) camps, world language camps; and Recreation Department Summer Activities for Children.

The district continued to use a regional site partner school plan at the elementary level. Elementary schools either held Summer School at their site or used the partner school plan.

Middle level programs were held at each of the buildings and included future sixth graders enrolled in the Forward Progress program.

High school programs were offered at Bradford High School, Harborside Academy, Indian Trail High School and Academy, Reuther Central High School, Tremper High School, and Kenosha eSchool. The high school program included future ninth graders enrolled in the Early Start program.

It is proposed that elementary and middle schools continue to run on a 24-day schedule, and high schools offer two sessions of 14 days each.

Grant Elementary School and Jefferson Elementary School have provided summer programs through the Regional Site Partner School Plan. Due to the specific

needs of students at both schools, the schools have requested to operate programming as individual sites for the 2017 summer session.

The summer 2016 budget was \$1,253,336. Administration recommends that the budget remain the same for summer 2017.

At its November 29, 2016, meeting, the Curriculum/Program Standing Committee voted to forward this report to the Board of Education. Administration recommends that the Board of Education approve the proposed dates, program updates, and budget for Summer School 2017."

There were no questions from Board members.

Ms. Stevens moved to approve the proposed dates, program updates, and budget for Summer School 2017. Mrs. Snyder seconded the motion. Unanimously approved.

Mr. Hamdan presented the 2016-2017 Adopted Budget Book. He demonstrated how to navigate the budget book through the following areas: table of contents, executive summary, district staffing, staffing by location, student information, revenue limit history, equalized values breakdown by municipality, tax levy information and history, budget adoption format, fund balance history, detail of revenue by source, chart of revenue source, detail of expenditures, and summary of expenditures by location.

Mr. Hamdan answered questions from board members.

Dr. Savaglio-Jarvis introduced the KUSD Teacher Salary Structure Survey submitted by Mr. Kristopher Keckler, Chief Information Officer; Mrs. Annie Petering; Chief Human Resources Officer; and Dr. Savaglio-Jarvis, excerpts follow:

"In the fall of 2016, Kenosha Unified began the process of gathering various forms of data and feedback with the goal of developing an updated and financially feasible salary schedule for district employees. For example, several staff members along with the Superintendent attended a CESA 1 Superintendent meeting that focused on teacher salary presentations. These included compensation models from multiple school districts and their processes for gathering feedback from staff to building a salary structure. As noted during these presentations, the general timeline for developing and implementing these models covered a two to three-year period.

Staff in the teacher group make-up approximately 75% of the overall organization. The goal of this KUSD survey was to capture as many teacher voices; ensuring staff on a teacher contract had an opportunity to provide input. This survey was voluntary and anonymous. The survey was sent to 1,708 staff identified in the teacher group. Of which, 1,361 responded within the window of 10/27/16-11/07/16.

As the largest employer in the county, KUSD is always looking to attract and retain quality employees for all positions. Representatives from the Office of Human Resources, Office of Educational Accountability, Communications Department, School Leadership and the Superintendent's office attended survey-planning meetings. During

these meetings, draft inquiries were discussed. These discussions helped shape this interest based collection survey. Similar areas of feedback were aligned to questions and research obtained from a recent Kenosha Area Business Alliance (KABA) project.

Since each question of the teacher survey was voluntary, the percentage of responses for respective selections will only be based on those staff that provided a response. The survey also had six questions that allowed staff to provide an individual text response. Those six questions produced nearly 5,000 comments that were reviewed and catalogued by twelve staff that were assigned to read each separate response. A quick reference guide for the select response questions and summary points for the comments are provided with the attached presentation.

This is an informational report."

Mr. Keckler presented the WorkplaceDynamics Survey Summary submitted by Mr. Keckler, Mrs. Petering, and Dr. Savaglio-Jarvis, excerpts follow:

"With regards to gaining insight to the overall organization, KUSD Leadership decided to survey employees in order to better understand the feelings of the staff and establish growth objectives for improved engagement. WorkplaceDynamics is a national provider of comprehensive organizational surveys, working with thousands of companies and covering over 2 million employees each year. Multiple workplace metrics and factors are measured; "Direction", "Effectiveness", "Connection", and "My Manager" are factors of the "OrgHealth" metric and "My Work", "My Expectations", and "My Pay & Benefits" are factors of "The Basics" metric. Each of these factors may be further explored by selecting different demographic filters (departments, tenure, factor statements, etc.). The "OrgHealth" and "The Basics" of a job help to establish employee engagement, hopefully defining attitudes that sustain growth and performance excellence.

The WorkplaceDynamics surveys were provided to staff via a secure email link to allow for anonymous delivery and feedback. Staff provided responses to both select response statements and comment boxes. These various submissions are cataloged under different workplace factors and statements. The district will use this data in developing improvements in areas that were noted as weaknesses and continue to enhance areas of strength. In Winter 2016, Administration from every building and department received respective access to their feedback and responses and attended initial trainings to help guide further discussions. In the winter of 2017, the building administrators and department heads will continue to review the results and recent progress with their staff. The overall district baseline data obtained in April 2015 is compared with the recent October 2016 results and summarized in the associated presentation.

To improve the working conditions of the organization, the goal is to address the top challenges, especially in the OrgHealth metric. For staff to have a quality connection, they must feel that their efforts are a true investment in both their professional growth and the betterment of the service to students. These areas are tied directly to teacher efforts and student achievement. The organizational health will always play a direct and impactful role in any company. The recently adopted KUSD

mission, vision, core values and five strategic directions will, over a period of time, address the concerns for organizational alignment, while developing and retaining quality staff should advance the structural execution. Having effective leaders and managers increase communications and means of appreciation will assist in impacting the alignment and effectiveness of the organization.

The district plans to continue to conduct this survey every fall in order to track improvement and change over multiple years. This is an informational report."

Mr. Keckler gave a PowerPoint presentation which covered the following topics: survey snapshot, WorkplaceDynamics timeline (2015-2016 & 2016-2017), survey participation, experience of responders, KUSD staff input, working culture alignment and uniqueness, what the survey measures, what drives success?, average scores of statements, "the basics" results sample, my manager average scores of statements, alignment average scores of statement, connection average scores of statement, average scores of bottom statements, average scores of top statements, positive engagement, and top challenges.

Mr. Keckler answered questions from Board members.

Graduation Committee Recommendations

Background

In the spring of 2015, concerns about the inequities within the way courses are transcipted, course offerings and the calculation of weighted grade point averages were brought to the attention of school leadership. Administration identified these concerns to be valid and requested the formation of a committee to review the graduation process. The recruitment for committee members began in September 2015.

The first committee meeting was September 28, 2015. The committee met on the following dates:

September 28, 2015	May 23, 2016
October 26, 2015	June 6, 2016
December 21, 2015	September 8, 2016
February 29, 2016	October 17, 2016
March 21, 2016	November 21, 2017
April 18, 2016	December 14, 2017
April 27, 2016	

Committee members are represented below:

Process

The committee work began in September 2015 with exercises to create a deep understanding of how to calculate weighted grade point averages followed by detailed examples of student schedules that demonstrate the inequity within the current structure. The student schedule examples presented were specific to the afterschool theater option and the waiver option for physical education. In efforts to establish a foundation for committee work, the committee members completed a survey.

Results from the survey revealed two questions for the committee to investigate:

- 1. Why is our current class rank procedure not fair to all students?
- 2. What are the obstacles to KUSD students taking the most rigorous schedules?

The committee identified concerns and obstacles. These identified concerns and obstacles became the foundation for the committee work. The recommendations generated by the committee evolved from discussion and research. There were four categories of recommendations:

Weighting of Grades Graduation Recognition Communication/Scheduling/Course Offerings Afterschool Offerings

Weighting of Grades – The College Board explains advance placement courses (AP) reflect college expectations. Committees of higher education faculty and high school AP teachers create a rigorous AP curriculum. These courses are data driven from universities and colleges. Highly qualified teachers with the expectation of regular professional development specific to the AP curriculum must teach AP courses. The College Board website (www.collegeboard.org) contains specific AP course information and the rigor of the AP curriculum.

Committee Recommendation: AP courses will carry more weight in weighted GPA calculation.

Current weighted grade point average points and the proposed points for each course:

Advanced Placement				
Grade	Current Points	Proposed Points		
A+, A, A-	6	5		
B+, B, B-	5	4		
C+, C, C-	4	3		
D+, D, D-	3	2		

Honors			
Grade	Current Points	Proposed Points	
A+, A, A-	6	4.5	
B+, B, B-	5	3.5	
C+, C, C-	4	2.5	
D+, D, D-	3	1.5	

Regular (Non-Weighted)			
Grade	Current Points	Proposed Points	
A+, A, A-	5	4	
B+, B, B-	4	3	
C+, C, C-	3	2	
D+, D, D-	2	1	

Graduation Recognition – The committee articulated the desire to have a grade point calculation structure that is fair to all and one that acknowledges the hard work of our top students. According to the *National Association for College Admission Counseling*, 55% of high schools do not report rank. Information on the laude system can be found at www.cumlaude.org. The purpose of the laude system is to recognize students for the rigor of their academic program as well as their success in that program. The laude structure recognizes academic levels of distinction. There are different ways laude systems are calculated. The committee analyzed different laude systems. The committee recommends the use of weighted grade point average ranges for laude recognition.

Recognition levels based on only weighted grade point averages allows students to compete against themselves for recognition. Without competition with other students, the laude system allows for a fair structure for students. The laude system is a tiered recognition system that recognizes students for the rigor of their academic program as well as their success in that program. A range of weighted grade point averages would determine the various tiers, summa cum laude, magna cum laude, and cum laude.

The recognition tiers were determined by evaluating historical graduation cohorts using the new weighted calculation formula.

Committee Recommendation: Phase in a Laude recognition models for graduating classes, beginning with the Class of 2022.

Laude Recognition	Weighted Grade Point Average Range
Suma Cum Laude	4.30-5.0
Magna Cum Laude	4.0 – 4.29
Cum Laude	3.70 - 3.90

Communication/Scheduling/Course Offerings – This category contains the analysis of communication between schools during scheduling, communication with parents, the rotation of course offerings. This section offers guidelines to schools for communication with each other and to parents. Committee created six guidelines for schools.

- 1. Schools will work collaboratively with the goal of scheduling singletons not in conflict.
- 2. If time allows between registration and the locking of the schedule, schools will do an all call to families for notification of schedule conflicts.
- 3. Schools will use blended honors courses as a last resort in scheduling.
- 4. Schools will attempt to run AP courses on a rotational basis to ensure students have maximum exposure.
- 5. Teaching and Learning will work with AP teachers to identify needs to increase scores and student participation on AP tests.
- 6. Each department within Teaching and Learning will explore expanding honors offerings.

Afterschool Course Offerings - Currently students have the ability to take multiple afterschool honors credits. This ability to add additional weighted credits outside the school day creates an unfair academic environment for students.

Committee recommendation: Allow students to designate one credit a year that will not calculate in the grade point average.

Committee recommendation: Afterschool honors course offerings will be transcripted but zero credit tied to course.

Future Decisions

At the first committee meeting, this group of volunteers clearly articulated the belief our current class ranking system is unfair. The group also communicated a desire to have a fair system for all KUSD students. This was the foundation for the work.

The recommendations included in this report align with the desire to have a fair system and these recommendations target specific practices that make the current system unfair. Any recommendation or decision that comes before the Board of Education should be viewed through this lens. For example, the proposal for a student athlete to waive a physical education class in place of a core class is still yet to be determined by the board.

Physical education classes are unweighted classes, meaning, there is not an honors option. Therefore, if we allow student athletes to replace this unweighted course with an honors or AP course, it would be unfair. To make it fair, student athletes must be required to replace the <u>unweighted physical education class</u> with <u>another unweighted class</u>. This is just an example of possible decisions that could impact the fairness to all students.

Should the board of education vote on any PE waiver, the board should consider the following statement, "If the school board votes to allow an approved PE waiver for those student athletes who participate in a WIAA sport, students must successfully complete an unweighted class from a core content area (math, science, social studies, language arts, or health). This statement was reviewed at the January 10, 2017, school board Curriculum/Program standing committee.

Recommendations

At the January 10, 2017, meeting, the Curriculum/Program Standing Committee voted to forward this report to the board of education. Administration recommends approval of the following recommendations:

- AP Courses will carry more weight in weighted GPA calculation.
- Phase in Laude recognition system beginning with the Class of 2022.
- Communication guidelines as presented in this report.
- Allow students to audit one credit per year through identification of course as audited.
- Afterschool honors course offerings will be transcripted but zero credit tied to the course.

Building Lifelong Trust

Background

The Kenosha Police Department approached KUSD to collaborate on a program connecting high school students with Kenosha police officers in the Fall of 2016. The design of the program facilitates conversation and dialogue between KUSD high school students and the Kenosha Police Department. The program titled, **Building Lifelong Trust** (BLT) written by the Kenosha Police Department and the program is broken down into seven distinct lessons. The recommendation is for BLT to be scheduled at Bradford High School, second semester of the 2016-2017 school year with expansion to Tremper, Indian Trail and Reuther during the 2017-2018 school year. BLT has the approval and support of Kenosha Police Department Chief, Dan Miskinis.

Program Details

The program includes up to 12 students. The program runs 7 weeks concurrently **(Attachment A)**. The students meet with police officers one time per week. The program will run during non-instructional time. The officers conducting the program will be the school resource officer and Officer Felicia Labatore, who represent the Kenosha Police Department. There is no cost to the district for this program.

Bradford High School administration and Kenosha Police Department representatives will hold parent meetings prior to the start of the program. Parents have the opportunity to review the lessons and must give permission for their child prior to participation. Parents or students can opt out at any time during the 7 week course.

Student volunteers for the BLT program will be solicited from the student body. Final participants will be chosen based on student schedule availability. Parents of this group of students will be contacted for an informational meeting, review of lesson plans, permission slips, etc. Bradford High School and the Kenosha Police Department will collect feedback from students after the completion of the program. This feedback and evaluation process will drive program adjustments. See attachment A for the seven lessons.

Recommendation

At the January 10, 2017, meeting, the Curriculum/Program Standing Committee voted to forward this report to the board of education. Administration recommends approval of this program.

A large sheet of paper will be placed on four different walls. The students will be asked to go to each sheet and write as much as they would like. The topics will then be discussed and if more time is needed to cover all of the information listed, we will use other days when time is available.

Statements to be written on each of the 4 sheets:

- a. What are some good experiences you have had with the police?

Week 2 Descriptions & Scenarios

Week 2 – Descriptions & Scenarios

Goal:

 - c. Discuss how all of the students were offered the same opportunity, distance and time frame to see the same person, yet the descriptions are all different.

4. What is Reasonable Suspicion?

Definition:

Reasonable suspicion is a standard established by the Supreme Court in a 1968 case in which it ruled that police officers should be allowed to stop and briefly detain a person if, based upon the officer's training and experience, there is reason to believe that the individual is engaging in criminal activity. The officer is given the opportunity to freeze the action by stepping in to investigate. Unlike probable cause that uses a reasonable person standard, reasonable suspicion is based upon the standard of a reasonable police officer.

5. What is Probable Cause?

Definition:

According to the Supreme Court, probable cause to make an arrest exists when an officer has knowledge of such facts as would lead a reasonable person to believe that a particular individual is committing, has committed or is about to commit a criminal act. The officer must be able to articulate the facts and circumstances forming the basis for probable cause.

Mutual understanding of expected behavior during police contacts

Lesson:

- 1. Welcome students back and ask about their week.
- 2. Recap information from week 2.

Then compare to the next slide. Discuss each type of contact. Ask the students to give examples if they have had any contacts with officers.
- 4. Next Slide. Discuss Mutual expectations during police contacts.
 - a. Mutual respect. Looking at each other while talking.

5. What is an Ordinance?

An ordinance is a municipal law, rule, or regulation that applies to a specific town or city limits. Because each city has their own set of ordinances, the different violations can be very broad.

a. What does an ordinance mean to you?If you are in violation of an ordinance, you could receive a ticket.

would vote on it and a new ordinance could be created.

b. How is an ordinance created? Each area in the city limits has an elected alderman. If a citizen has an idea for a new ordinance, the information could be brought to their Alderman. The Alderman would then bring it to the City Attorney. In the end, the City Council

Provide an explanation that police officers taken an oath to enforce the laws, but they do not create the laws.

c. Enforcement

If you are in violation of an ordinance, you could be given a ticket. If you are under the age of 18, your parent would also receive a copy of the ticket.

d. Consequences

If you don't pay the ticket or show up for the scheduled court date, your driver's license will be suspended. If you are 17 years old, you are considered

an adult. If you don't pay or show up for court, you could eventually receive jail time.

If you are under 17 years old, you can ask for community service on the 1st offense and then you wouldn't have to pay the fine and it could be dismissed.

6. Trivia Game

Kenosha Unified School District Kenosha, Wisconsin

January 24, 2017

POLICY 6700—EXTRACURRICULAR ACTIVITIES AND PROGRAMS

Background

The U.S. Department of Education, Office of Civil Rights (OCR), filed a complaint against Kenosha Unified School District alleging discrimination on the basis of sex. More specifically the complaint alleged that the district discriminated against female students at Tremper and Bradford High Schools by denying them an equal opportunity to participate in interscholastic athletics. On October 24, 2012, the Kenosha Unified School District signed a Resolution Agreement to resolve the complaint filed.

Section III of the aforementioned agreement required the district to develop a process or procedure for students or other interested parties, such as coaches or parents, to use to request the addition of new sports or level of sports at Bradford or Tremper and to publish the procedure, including on the district's website.

In response to this finding, Policy 6700 was last updated on November 15, 2016, based on the following recommendations made by legal counsel:

- Include a detailed procedure for adding new extracurricular programs and activities.
- Add federal statutes related to the policy as well as review Wisconsin Statutes, Wisconsin Administrative Code, and cross references currently listed in the policy.

Recent Office of Civil Rights Communication

On November 17, 2016 Kenosha Unified School District received notification from the OCR that additional wording should be added to Policy 6700 to clarify that a request for additional levels of competition in an existing sport is made under this policy. An updated copy of Policy 6700 with the latest OCR required wording added may be found in Appendix A.

Additionally the District is asked to submit a plan to OCR that explains how it will demonstrate compliance to ensure that the interests and abilities of students who are members of the underrepresented sex have been met by the present athletic program for the 2017-2018 school year. In order to meet this criterion the District has extended the October 1, 2016, deadline for submitting requests for new programs or requests for additional levels of competition in an

existing program to February 1, 2017. This has been communicated to the high school students and their families via school newsletters and social media.

Recommendation

At its January 10, 2017, meeting, the Personnel/Policy Committee voted to forward revised Policy 6700 to the School Board for consideration. Administration recommends that the School Board approve revised School Board Policy 6700—Extracurricular Activities and Programs as a first reading on January 24, 2017, and a second reading on February 28, 2017.

Dr. Sue Savaglio-Jarvis Superintendent of Schools

Mrs. Julie Housaman Chief Academic Officer

Mr. Bryan Mogensen Coordinator of Athletics, Physical Education, Health, Recreation, and Senior Center

POLICY 6700 EXTRACURRICULAR ACTIVITIES AND PROGRAMS

Extracurricular activities are recognized as an integral part of the educational program. The District will sponsor such activities which are beneficial to a student's development.

The School Board encourages the full participation of elementary, middle and high school students in extracurricular and recreational programs and activities offered in the District. For purposes of Board policy, "full participation" means fair and equal participation to the extent that the budget, facilities or type of activity allows.

Persons attending any school activity shall conform to the rules and regulations of the school. Persons who refuse to honor these rules can be ejected from the building without monetary admission refunds, may be denied the privilege to attend future events and will be subject to other disciplinary measures as established by District policy.

The District shall not discriminate in admission to any program or activity, standards and rules of behavior, disciplinary actions or facilities usage on the basis of sex, race, religion, color, national origin, ancestry, creed, pregnancy, marital or parental status, sexual orientation or physical, mental, emotional or learning disability or handicap. This policy does not, however, prohibit the District from placing a student in a program or activity based on objective standards or individual performance. Discrimination complaints shall be processed in accordance with established procedures.

New program requests **or requests for additional levels of competition in an existing program** shall be submitted in writing to the coordinator of athletics, physical education, health, and recreation by October 1 for new programs to be considered for the following school year. The coordinator will forward the request to a district team comprised of: the superintendent of schools or designee; the building principal; and the coordinator of athletics, physical education, health, and recreation. The team will review the request utilizing the following criteria: financial impact of proposal, availability of facilities, student interest, qualified coaching candidates, Title IX, impact on existing district-approved programs, and the availability of competition in the reasonable geographic area. Where such programs **or additional levels of competition** have current or future budgetary implications, written approval of the superintendent of schools or the board of education will be required.

FOUR-YEAR GRADUATION RATE - COHORT ANALYSIS

(School Year 2015-16 - Graduation Class of 2016)

Executive Summary

Administration presented the first cohort analysis of graduation trends to the Kenosha Unified School Board beginning with School Year 1994-95. This cohort analysis is the twenty-first annual report to the Kenosha Unified School Board. It provides a "base cohort" illustrating the progress of students from their initial enrollment as a ninth grader on the Official Third Friday Count Day in SY 2012-13 until the end of summer school four school years later in August 2016. Additionally, the graduation "base cohort" of the Class of 2015 was examined in terms of its progress during the year following its designated graduation year (fifth year) along with the Class of 2014 after two years (sixth year).

The cohort graduation rate presented in this report is slightly different than the rate published by the Wisconsin Department of Public Instruction (DPI). Beginning in 2009-10, DPI reported a 4-year cohort graduation rate which includes all students who have been assigned to a *Wisconsin* public school cohort and were last enrolled in the Kenosha Unified School District (KUSD) during the 4-year time period, whether or not the student *began* in KUSD in their ninth grade year. Additionally, DPI's graduation rate is a factor in two priority areas of the annual Accountability School and District Report Card: Closing Gaps and On-Track and Postsecondary Readiness. For the school and district report cards, DPI provides data on the 4-year cohort and the 6-year cohort graduation rates. DPI's WISEdash portal also includes a 5-year rate. This KUSD cohort report will align with the DPI model of presenting a 4-year, 5-year and 6-year graduation rate.

Beginning in SY 2010-11, new federal guidelines regarding student race and ethnicity were implemented. In the past, parents/guardians were required to categorize their child in one of the following ethnic groups: Asian, Black/African American, Hispanic, Native American, and White. The current guidelines apply a two-part question format: first whether or not the student is Hispanic/Latino and then selecting one or more of the following races: American Indian or Alaska Native, Asian, Black or African American, Native Hawaiian or Other Pacific Islander, and White. The students of the Class of 2016 will utilize the new race/ethnicity categories whereas cohorts prior to Class of 2014 will use the former categories.

The current graduation requirements for core content areas are 3.0 credits for Social Studies, Math and Science and 4.0 credits for English. Rule 6456 also includes a Community/Service Learning requirement with a minimum of 10 service hours. A recent change effective for Kenosha Unified students earning a diploma in School Year 2016-17 is an additional 0.5 elective credit which totals to 8.0 elective credits and a total credit requirement of 23.5. In addition, all students, beginning in 2016-17, must successfully pass the U.S. Civics Exam (U.S. Citizenship and Immigration Services Exam) with a score of 60 or higher out of 100 questions. Currently, Wisconsin High School Graduation Standards contain a minimum requirement of 4 credits for English/Language Arts, 3 credits each for

Social Studies, Math and Science, 1.5 in physical education, 0.5 in health education and encourages an additional 8.5 credits which totals 23.5 credits. For the current school year (cohort 2017) the graduation requirement total number of credits for KUSD is equal to the state of Wisconsin suggested total of 23.5.

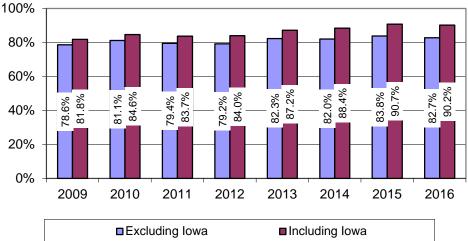

NOTICABLE FINDINGS

Four-Year Cycle (Class of 2016)

The following is a list of findings based on a review of this year's cohort analysis. Please note that the terms "Students with Disabilities", "Economically Disadvantaged", and "Limited English Proficient" are used as defined by the new Every Student Succeeds Act (ESSA), formerly No Child Left Behind (NCLB), and the Individuals with Disabilities Education Act (IDEA), as well as the state-approved waiver agreement post-NCLB, and are consistent with DPI reporting.

1. At the end of the four-year cycle, the KUSD Class of 2016 achieved an overall graduation rate of 82.7% when *excluding* "Iowa" graduates, and 90.2% when *including* "Iowa" graduates. These figures display a slight decrease from the 83.8% and 90.7% reported by the Class of 2015. However, it is the second year that the graduation rate surpassed 90%.

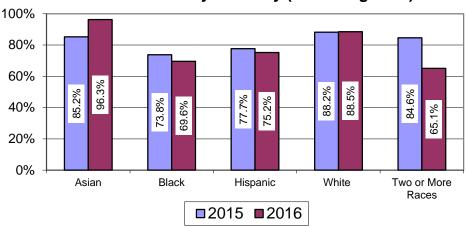

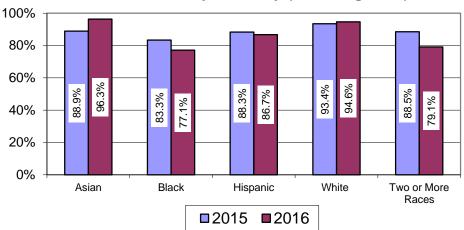

- 2. As in previous years, Females graduated at a higher rate than Males. When <u>excluding</u> "Iowa" graduates, Females report 84.7% compared to Males at 81.0%. However, when <u>including</u> "Iowa" graduates, this gender gap closes to an all-time low of less than one percent with the Class of 2016 reporting Females graduating at 90.5% and Males at 89.8%.
- 3. Most of the minority ethnic groups graduated at lower levels than their white peers in 2016. However, Asian students not only reported a significant increase from 2015 to 2016 when *excluding* and *including* "Iowa" graduates, they also reported the highest overall rate among the ethnic groups.
- 4. The other minority ethnic group reported declines in 2016. Hispanics showed a slight decrease from 2015 with 75.2% when *excluding* "Iowa" graduates and 86.7% when *including* "Iowa"

graduates. However, these 2016 rates by Hispanics are higher than that of the Class of 2014 and earlier. Rates of Black students and those with Two or More Races also declined in 2016 when *excluding* "Iowa" graduates and *including* "Iowa" graduates.

Graduation Rates by Ethnicity (Including Iowa)

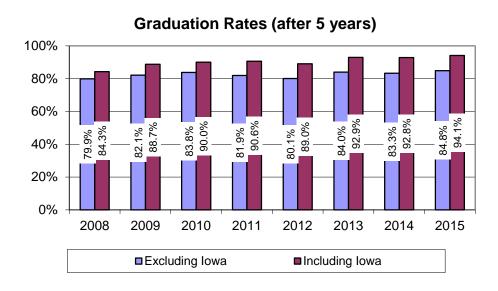

- 5. The graduation rates for the target groups in the School and District Report Card, "Students with Disabilities", "Economically Disadvantaged", and "Limited English Proficient" report graduation rates at a lower rate than their comparison group.
- 6. Limited English Proficient students reported significant increases from 2015 to 2016. When *excluding* "Iowa" graduates, their rate increased from 66.4% in 2015 to 74.8% in 2016. When *including* "Iowa" graduates, the rate increased from 81.9% in 2015 to 87.0% in 2016. This gap between English Proficient and Limited English Proficient fell to 3.4% when "*including*" "Iowa".
- 7. The percent of students that transferred out of Kenosha decreased from 11.2% in 2015 to 9.6% in 2016. One of the highest rates was from Limited English Proficient students, with 16.6% transferring out since 9th grade compared to 11.5% with the Class of 2015.

- 8. The dropout rate decreased to a low of 1.5% in 2016 compared to 2.0% in 2015 when *excluding* "Iowa" graduates as dropouts. The student group with the highest dropout rate was students with Two or more Races (4.7%).

KENOSHA UNIFIED SCHOOL DISTRICT Kenosha, Wisconsin

January 24, 2017

Open Enrollment Allocations – 2017-18 School Year

The Wisconsin Department of Public Instruction (DPI) stipulates that each resident school district allocate open enrollment spaces during their January board meetings. The 2017-18 Open Enrollment period is from February 6 to April 28, 2017. Along with the posted 3-month open enrollment window, applicants may also apply to a non-resident district using the designated Alternative Open Enrollment Application during the current school year if the applicant can demonstrate that he/she meets certain criteria. Appendix A contains a listing by grade of available open enrollment regular education spaces for School Year 2017-18. DPI has communicated that the District's affirmation must specifically delineate both regular education seats by specific grade level and special education seats by program and/or service type.

KUSD Policy 5260 requires that a current open enrolled student re-apply just once, which is during the transition from elementary to middle school, or if they first enrolled during middle school, then they must reapply during the transition from middle school to high school. Also, tuition waiver students (those who start the year in KUSD but move out of district) have a right to complete the current year and apply for open enrollment the following year. Even though these are current KUSD students, they are counted as new applications for our state reporting.

The Offices of Educational Accountability, School Leadership, Teaching and Learning, Special Education/Student Support and Early Education met on multiple occasions to gather, refine and allocate information in regards to the number of available spaces for School Year 2017-18 within the Kenosha Unified School District. After review of the available data and enrollment projections, this cooperative team with the endorsement of the Superintendent of Schools makes the recommendation contained in Appendix A (regular education) and Appendix B (special education) to the School Board.

Administrative Recommendation:

Administration recommends that the Kenosha Unified School Board affirm and approve the space availability for open enrollment students for school year 2017-18. Recommendation is for a total of 205 spaces, 23 of which are designated for selected special education programs service/types as noted below.

Policy and Rule 8870 – Public Participation at School Board Meetings

School Board Policy 8870 was created in 1997 to provide an avenue for citizen comments at school board meetings which was last revised in February 2015. Attached is Policy 8870 – Public Participation at School Board Meetings with some recommended revisions for review.

Initial suggested revisions to the policy were sent to Board members by administration on November 21 and November 29 for individual review, feedback, and/or suggested changes.

The following revisions to the policy are being recommended:

- that the term "citizen" be defined as a District resident, Kenosha County resident, a student currently enrolled in the District, a parent of a student(s) currently enrolled in the District, and/or a current or former District employee;
- that citizen comments and/or questions at Board meetings be related only to topics on the board posted agenda;
- that the option to call the Superintendent's Office to request to be placed on the list of speakers be removed;
- that prior to speaking, citizens be required to state their name, address, status as a district resident and the agenda topic that they will be speaking on;
- the addition of a process for verifying the legitimacy of a citizen if suspicion arises; and
- the addition of an option for the Board President or acting chairperson to revoke a citizen's privilege to participate in the "Views and Comments" portion of the Board meeting if the participation is irrelevant, repetitive, or abusive or otherwise causes disruption to the orderly conduct of the meeting.

Recommendation

It is recommended that the Board approve revised Policy and Rule 8870 – Public Participation at School Board Meetings as a first reading at the January 24, 2017, regular school board meeting and as a second reading at the February 28, 2017, regular school board meeting.
