

• When opening the Chromebook you will receive the message "Network not available"

•			
Network not available			
Please connect to the Internet to sign in to your Chromebook.			
If you've already registered on this device, you can sign in as an existing user.			
WiFi Network SSID			
Add other WiFi Network			

- Under "Network not available" there will be a list of broadcasting networks. Click your home network and enter your home network password.
 - If your WiFi SSID is hidden, select "Add other WiFi Network" and enter your password.
 - If you are unsure of the password, sometimes the password is on the bottom of your router.
 - Please contact your Internet Service Provider if you do not know your password.

Troubleshooting Network Connection

- If you lose network connection while logged in, you can click the WiFi icon in the lower right-hand corner of the screen.
- Click Not Connected.
