A meeting of the Kenosha Unified Personnel Committee chaired by Mr. Duncan was called to order at 6:00 P.M. with the following committee members present: Ms. Adams, Ms. Stevens (virtual), Mr. Nixon (virtual), Ms. Tucker (virtual), Mr. Steplyk (virtual), Ms. Zilisch (virtual), Ms. Coshun (virtual), Ms. Davis (virtual), and Mr. Duncan. Mr. Duncan welcomed committee members who introduced themselves. He then briefly reviewed the operating principles.

**New Strategic Goals Reaction Group**

Dr. Savaglio-Jarvis shared information about the district's partnership with Studer Education and our work to refresh our district goals. She then asked Melissa Matarazzo (virtual), Leader Coach from Studer Education, to introduce herself and lead us through this reactor group process.

Dr. Matarazzo explained the purpose today is to gather the committee's feedback on draft goal related to personnel/workforce and how we will measure success in this goal across KUSD. She shared the strategic plan components consisting of vision, mission, core values, strategic goals and strategies.

Dr. Matarazzo discussed the two current goals related to the workforce and then shared the following draft goal language for the refreshed goal: "Recruit, retain, and develop a highly effective and diverse staff that ensures the success of every student." The draft measures for this goal included:

- Increase % of Black/ Latinx applicants for open teaching and administrative positions;
- Increase % of Black/ Latinx applicants interviewed for open teaching and administrative positions;
- Improve employees' perception of the workplace on Employee Engagement Survey;
- Reduce resignations when occurring for a similar job elsewhere; and
- Increase # of staff who add additional licenses annually.

Dr. Matarazzo asked committee members to provide feedback regarding what sounds like important work/outcomes and what is missing or does not fit as important work regarding this goal and measures?

Questions/comments that Dr. Matarazzo responded to included:

- What are the baselines for each of the goals listed?
- What role can KUSD plan in development of career changed teachers? Trajectory is not clear for many candidates. How can we improve and tap into relatively untapped pool of teacher candidates?
- Additional certifications are not only way to know if we are developing our staff.

- How do we get training opportunities such as REI, etc. to our teaching staff?
- There is need for upward mobility for current staff.

Dr. Matarazzo will bring that question back to the group working on this goal.

Dr. Matarazzo asked if there is anything missing or does not fit as important work regarding the mission? Comments included:

- There should be more conversations about mental health and teachers should learn how to converse with students on that topic.
- It was noted that teachers at LTA received mental health training.
- It is helpful to hear from teachers about training they have received.
- We are missing a connection with KUSD and the community. Teachers face resistance and anger from the community which does not result in people wanting to become teachers.

Dr. Matarazzo said a question could be “How would we know that our community has been supportive of our teachers and staff over time.”

### **United Healthcare Nurse Liaison Update**

Mr. Neir reviewed a slide showing health and well-being engagement snapshot for our nurse liaison.
