# ADDENDUM

TO

## REQUEST FOR PROPOSAL

#5386 – ELEMENTARY MATH WORKBOOKS  
FOR KENOSHA UNIFIED SCHOOL DISTRICT

**This Addendum is being issued for the following reasons:**

- For printing purposes, the total pages of each math student book needs to be divisible by 4 if the cover is included in that count.
- The page count that was provided in the RFP may not have a quantity of pages that is divisible by 4. The page count refers to the number of pages in the pdf file that is being used for the math student books. Additional blank pages may need to be added to create student books that have a total page amount divisible by 4.

End of Addendum to RFP #5386 – Elementary Math Workbooks
