

Dear Students, Parents, and Staff,

Safety is our top priority, especially for students who travel near or around streetcar tracks. As a part of our commitment to ensuring a secure environment, we want to remind everyone of the importance of practicing streetcar safety.

Streetcars are a key part of city transportation, but they require special attention when moving through areas close to our school. Whether walking, biking, or driving near the tracks, we ask all students and community members to follow these crucial safety guidelines:

1. **Stay Alert Near Tracks** – Always look both ways before crossing and avoid distractions like headphones or mobile devices.
2. **Only Cross at Designated Areas** – Use marked crosswalks and never attempt to cross in front of or behind a moving streetcar.
3. **Watch for Signals and Streetcars** – Obey all warning signs and lights, and be mindful that streetcars cannot stop suddenly.
4. **Give Streetcars Space** – Avoid standing too close to the tracks and never play or place objects near them.
5. **Board Safely and Respectfully** – If using streetcars for transportation, wait until they come to a full stop before boarding or exiting.

Students, families, and staff all play an important role in fostering a safe school environment. By following these guidelines and encouraging others to do the same, we can protect one another and ensure a secure space for learning and commuting.

Thank you for prioritizing safety. Please share this information with your family and friends to help make our school community a safer place for everyone.

Sincerely,

Kenosha Area Transit department
